

SAROS DESIGN

Stretch Ceilings

PREMIUM COLLECTION

Established in 1992, we have been engineering, designing, and manufacturing stretch ceilings and lighting solutions for more than 25 years.

Today, we are very proud of the result we have achieved: we export our products to more than 40 countries and are trusted by more than 300 partners worldwide.

Saros Design product is a combination of impeccable style, technologies and quality management ensuring the closest attention and control to the finest details. The SAROS DESIGN Quality Management System has been certified according to ISO 9001:2015 quality standard.

We, at Saros, are constantly developing and extending our product range to meet all our partners' needs, however challenging they are. Creative ideas proposed by our clients, architects and designers push us forward to create new, unconventional solutions for unique projects.

Our team is at the core of the SAROS Company, and are valued endlessly. We speak 9 languages; more than 90% of SAROS-manufactured products are exported all around the world, so, we have brought together a multi-lingual team to ensure effective communication with international partners.

In this catalog, you can find samples of stretch ceiling films and textiles of various colors and textures. SAROS DESIGN stretch ceilings manufactured from high-quality PVC films up to 5 m in width meet the requirements of EN 14716:2004 European Standard “Stretch ceilings. Requirements and test methods” (CE Marking).

We guarantee the high quality of the product we make and provide a 10-year warranty for SAROS DESIGN stretch ceilings.

CE & ISO 9001:2015
